UMPIRE'S PERFORMANCE, APPRAISAL OF CONDITIONS & REPORTING PLAYERS & BEHAVIOUR**

Captain's Reports on competition management platform (PlayHQ) cover appraisal of Umpire performance, ground conditions and includes an option to report a player/s whether the game has a BCUA Umpire or no appointed umpire.

The captain's report is automatically emailed to the nominated Captain with a link for the report, when the game status is marked complete after entering scores in the competition management platform (PlayHQ).

If a player, coach or club official demonstrates behaviour that is worthy of a report, the name of the player and a detailed explanation of the incident must be recorded in the Captain's Report.

After all games with an allocated Umpire there will be a mandatory 5-minute meeting with the Umpires and Captains to discuss the game, how it was played, if there were any concerns and if a Captain is considering lodging a Player Report that the Umpire and other Captain need to be aware of.

In Games without an Umpire, if a Captain is considering reporting a Player from the opposing club, they must discuss the incident and inform the Opposition Captain if they intend to report the player before leaving the game.

This report will be forwarded to the BCA Investigations Officer in accordance with the provisions of [BCA Policy 1 – Code of Behaviour](#).

A submitted Player Report from a Captain will not be referred to the BCA MIO, if the opposition Captain had not been informed at the game of the possibility of this being done.

This does not stop

- the captain from making comments in the Spirit of the Game section about how the game was played, or
- Clubs submitting a formal complaint on official club letter head signed by a member of the club executive for investigation if they believe an incident happened that requires an investigation

Captain's Reports on competition management platform (PlayHQ) also cover the rating of own team's behaviour and opposition behaviour. This is rated 1 (poor) to 5 (Excellent). If behaviour of either team is rated at 1, further details must be provided in the Captain's Report.

All Clubs are to ensure that Captain's in all grades complete and lodge the Captain's Reports on competition management platform (PlayHQ) by 11.59 pm on the Monday following the completion of each match.

PENALTY: Shall be dealt with under Rule 5

If, due to suspension of play after the start of the match, the number of overs in the innings of either team has to be revised to a lesser number than originally allotted (minimum of 20 overs), then a revised target score (to win) should be set for the number of overs which the team batting second will have the opportunity of facing. This revised target is to be calculated using the current Duckworth/Lewis method calculated by the competition management platform (PlayHQ) Live Score App.
- (b) Prematurely Terminated Matches
If the innings of the team batting second is suspended (with at least 20 overs bowled) and it is not possible for the match to be resumed, the match will be decided by comparison with the target score determined at the instant of the suspension by the Duckworth/Lewis method. Each block of Fielding Restriction Overs must commence at the start of an over.

26.8.12 Fielding Restriction Overs – Interrupted Match Recalculation

If play is interrupted during non- Fielding Restriction Overs, then on resumption, it is necessary to determine how many remaining Fielding Restriction Overs should be allocated. Note: This is the only circumstance under which the Fielding Restriction status can be changed during an over.

- (c) If following an interruption while a Fielding Restriction is not in progress, it is found on resumption that the recalculated number of Fielding Restriction Overs remaining equals or exceeds the number of overs to be bowled in the innings, then the final Fielding Restriction will commence at the start of the next over.

26.9 NO BALL

Free Hit After ANY No Ball (PREMIER FIRST XI and CHAMPIONSHIP DIVISION 1 and 2 only)

The delivery following a no ball shall be a free hit for whichever batter is facing it. If the delivery for the free hit is not a legitimate delivery (any kind of no ball or wide), then the next delivery will become a free hit for whichever batter is facing. For any free hit, the striker can only be dismissed under the circumstances that apply for a no ball even if the delivery for the free hit is called a wide.

Changes to fielding positions are only permitted if a different batter is on strike for the free hit delivery. The bowler's end Umpire will signal a free hit by (after the normal no ball signal) extending one arm straight upwards and moving it in a circular motion.

26.10 WIDES: Wide Bowling - Judging a Wide

PREMIER FIRST XI, CHAMPIONSHIP DIVISION 1,2,3 and 4

The Home club is responsible for ensuring that the specified pitch markings are provided on turf wickets as per Rule 22.1. For synthetic pitches, the edge of the carpet is to be used in the absence of painted lines. Umpires are instructed to apply a very strict and consistent interpretation in regard to this Law in order to prevent negative bowling wide of the wicket. Any off side delivery which passes the batter outside the guidelines in the opinion of the Umpire shall be called a wide. Also, any ball which passes outside the line of the leg stump, regardless of width, shall be called a wide with the exemption of when the batter has moved after the ball has come into play (see note below)

Note: A ball will be adjudged a wide if the ball passes wide of where the batter is standing or has stood at any point after the ball has come into play for that delivery, and which also would have passed wide of the batter standing in a normal batting position

ONE DAY LEAGUE

Umpires are instructed to apply a very strict and consistent interpretation in regard to this Law in order to prevent negative bowling wide of the wicket. Any delivery on either side of the wicket, which in the opinion of the Umpire does not give the batter a reasonable opportunity to score, shall be called a Wide.

26.11 The Bowling of Fast Short Pitched Balls

A bowler shall be allowed to bowl one short pitched delivery per over. A fast short pitched delivery is defined as a ball which passes above shoulder height of a batter standing upright at the crease. In the event of the bowler bowling more than one fast short pitched delivery in an over, either Umpire shall call and signal no ball. (The above regulation is not a substitute for Law 41.7, which Umpires may apply at any time).

RULE 30 UNDERAGE BOWLING RESTRICTIONS

NOTE: The limitations in this appendix do not apply to slow bowlers unless specified herein.

a. Definitions

- I. **Bowling Type:** Bowlers of medium pace or faster (as determined by the umpires and broadly defined as a bowler to whom the wicketkeeper would normally stand back). The umpires shall immediately notify the captains of both sides of each bowler who they determine should be treated differently to this broad definition.
- II. **Players Age:** The player's age shall be determined as their age on 1st September preceding each cricket season (i.e. Under-19 players will be eighteen (18) on 1st September; Under-17 players will be sixteen (16) or under on 1st September etc.) and the appropriate bowling limitations shall apply for the entire season.

Note: the bowling limitations apply to the age of the bowler and not the age category of the competition.

b. Notification The team captain shall indicate to the umpires on the team sheet each player to whom this Playing Condition applies and indicate their age.

c. Bowling Limitations Apply at the Following Ages:

Under-19: Medium or Pace Bowler

A maximum spell of **six (6)** consecutive overs.

A maximum daily allocation of **eighteen (18)** overs.

Under-18: Medium or Pace Bowler

A maximum spell of **six (6)** consecutive overs.

A maximum daily allocation of **seventeen (17)** overs.

Under-17: Medium or Pace Bowler

A maximum spell of six (6) consecutive overs. A maximum daily allocation of sixteen (16) overs.

Under-15: Medium or Pace Bowler

A maximum spell of five (5) consecutive overs. A maximum daily allocation of twelve (12) overs.

d. Length of Break The break between spells is to be a minimum of thirty (30) minutes (including the Tea interval and any unscheduled breaks in play).

- I. A bowler who has bowled a spell of less than the maximum spell permitted for his/her age (defined above) may resume bowling prior to the completion of the necessary break, but this will be considered an extension of the same spell and the maximum spell limit for that age of player shall still apply. Following the completion of the extended spell, the normal break of thirty (30) minutes between spells will apply and the break within the spell is disregarded.
- II. If a change of innings occurs, and a bowler commences bowling in the new innings within thirty (30) minutes of bowling in the previous innings, this will be considered an extension of the same spell and the maximum spell limit and daily limits for that age of player shall still apply.
- III. If any interval or interruption in play results in an over not being completed, then that part of the over bowled after the break shall constitute one (1) over for the purposes of calculating the bowler's spell and daily limits. If this over is completed at the start of a new day's play, the over shall be considered the first over of a new spell for that bowler and the first over of the new daily limits.

e. Change of Bowling Type

Where a bowler changes between medium pace (or faster) and slow bowling during a day's play:

- I. If the bowler begins with medium pace (or faster), the bowler is subject to the playing condition throughout the day.
- II. If the bowler begins with slow bowling and changes to medium pace (or faster), the playing condition applies from the time of the change, and all overs of slow bowling bowled prior to the change shall not be taken into account in either the current spell or the daily limit.

f. Management

- I. It is the responsibility of the fielding captain to ensure that this Playing Condition is upheld. The umpires shall not be responsible for maintaining records to enable the enforcement of this rule; this is the responsibility of the scorers in the match. Scorers shall notify the umpires and fielding captain whenever a bowler reaches the maximum number of overs, he/she may bowl without a break, and shall notify the umpires immediately if a bowler starts (or is about to start) an over when he/she is not permitted to bowl under this rule.
- II. If the umpires become aware of breaches of this playing condition, when the ball is dead, they shall direct the captain to take the bowler off forthwith. If applicable, the over shall be completed by another bowler who shall have neither bowled the previous over nor be allowed to bowl the next over.
- III. Should a dispute or uncertainty regarding the application of this Playing Condition occur during play, the umpires shall make the final decision on its application based on information available from the scorers or other sources.
